As the biggest, wildest wildlife refuge in the United States at 30,000 square miles, the Arctic National Wildlife Refuge is home to dozens of species from caribou to shrews in its alpine tundra, Jagged mountain peaks, boreal torests and coastal plains.

The Cwich in and that have lived been for contaries, but the triggle occeystering are largely unbouched by modern industry. With the decovery still on early in 1969 and plans for a beside to run through the refuge. The North Face took action to raise assertions about the widerness that publicly assertions about the widerness that publicly. The Gwich'in and that have lived here for contubes.

to catch views of the Arctic Ocean and coestall plan, exploring stunning vistas and observing widely such as the Peccapine Carboo nerd. The applications will rived with Gwich in youth and loans about their strategies for preservation of these basis. those lands.

area this year by score song a new ream or explorers who seek to reine awareness around the unpending street in the region. Led by the North Face athlete and ski mountainess kill best autient, the team also includes Aundre Larrow, Monica Hornandez, Nathan Zod, Julia Febre-Salmon, and Mala Wilder Team members will elitods and document the stones from this recode and pristing landscope.

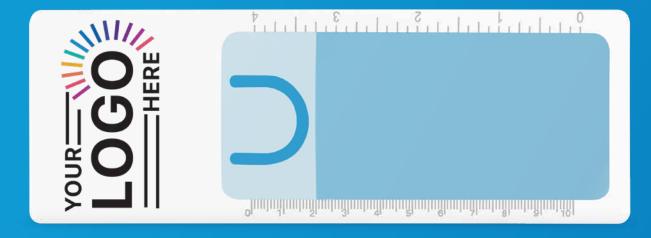

The town will pass through the Gwicch'in village of Fort Yukon, by in to comp and hire at the edge of a limitest wideness, alcending small peaks
