

Think Coasters For Branding Success

Full color imprints lend an irresistible, protective finish to any room.

Coasters aren't just functional. They also play the aesthetic role of framing drinks. It's a chance for your brand to show off with a little flourish, in full color!

Coasters are essential to any room, from the kitchen to the living room or patio. Cold drinks can create irreversible surface damage. The last thing to worry about when entertaining is potential water rings on furniture!

Worse than water rings? Investing in a beautiful set of coasters only to find that they don't absorb condensation. The best coasters are constructed from absorbent materials, like ceramic.

Made of natural stone, these coasters absorb condensation and keep furniture dry to the touch! Cork backing creates friction to keep drinks stable on any surface. They also won't adhere to the bottom of the glass. Your customer's decor will thank you.
